

„The Visions of Tomorrow are found in People, not in Business Plans“

Founder & MD Digital Associates

Recruiting for digital projects

Digital Associates specializes in connecting businesses with top-notch consultants in the field of digitalization, ensuring the successful, timely, and cost-effective implementation of projects. Our clientele includes mid-sized companies with digitally-oriented business models, corporations aiming to enhance their business processes or develop new digital business models, as well as innovative and successful start-ups.

We significantly enhance the quality of our clients' recruitment process through comprehensive position, customer, and industry analyses, employing a sophisticated search methodology combined with perseverance. Our ultimate goal is to consistently identify the best available consultants in the market and connect them with our clients. At Digital Associates, we prioritize building long-lasting, transparent, and stable business relationships by focusing on finding the most suitable fit, rather than simply a specialist for a one-off project.

Our range of services encompasses the complete cycle of staffing, including needs analysis, project initiation assistance, and ongoing support as a central contractor for both clients and consultants. Moreover, we prioritize compliance and provide additional advice on the proper utilization of external consultants.

Ihre Vorteile:

- Skill-focused matching for optimal competence alignment
- Access to a highly specialized pool of consultants
- Legally secure representation (ensuring compliance with legal regulations)
- Dedicated account manager with specialized knowledge
- Typically, profiles delivered within 48 hours
- Quality-assured and reference checked profiles of potential candidates
- Administration of developer tests for accurate assessments
- Streamlined communication through a single point of contact
- Professional supervision throughout the project
